ELECTION DAY RESPONSE

COVID-19

Due to the rapidly changing dynamics of COVID-19, the Maricopa County Elections Department redesigned an entire election in five days into a “vote anywhere” model. In addition to accommodating for site closures of high risk facilities, the primary objective was to ensure poll workers had sufficient supplies to regularly clean and disinfect voting equipment and frequently touched surfaces. The Elections Department selected the locations based on a variety of factors including sites with a high density of Democrat in-person voting, and locations that serve historically underserved populations.

ELECTION DAY RESPONSE

County Support

In addition to staff from the Elections Department and the Recorder's Office, county employees across all departments [staffed closed polling locations](#) to send voters to the nearest vote centers, set up polling locations, served as poll workers and troubleshooters, and worked in our command center. The Maricopa County Sherriff's Office also worked to keep everyone safe.
