Maricopa County Recorder Announces Office Reorganization

Maricopa County Recorder Adrian Fontes announced the reorganization of the Recorder and Elections departments Monday in a Facebook Live video.

“We want management to have as much access directly to leadership as possible,” Fontes said.

All day to day operations were moved under the Chief Deputy Recorder, Keely Varvel. These operations include: Mapping Services (formerly GIS), Information Technology, Elections, Voter Registration and Recording. The new horizontal structure moved voter registration out of Elections and into the Recording Department.

Support services were moved under the Chief of Staff, Mike Schiller. These include all administrative services, press relations and community relations.
