Recorder Fontes and Supervisor Barney Celebrate New Sun Lakes Recording Kiosk

Maricopa County Recorder Adrian Fontes and Board of Supervisors Chairman Denny Barney will co-host a ribbon-cutting ceremony Thursday morning in Sun Lakes for the placement of the eleventh recording kiosk.

The recording kiosk, an innovation championed by Fontes' predecessor, brings the Recorder's office to the Sun Lakes library. Customers can record their documents with assistance from a document recording specialist at the Recorder's office through a webcam. The kiosk offers recording ability as well as other county services from these departments: Air Quality, Environmental Services and Planning and Development.

"We talk a lot about what is best for customers and these kiosks are a prime example of using technology efficiently," said Board of Supervisors Chairman Denny Barney, District 1. "There is no need to spend hours driving downtown to deliver a few sheets of paper when we can offer these vital county services in a local library."

"I applaud my predecessor for her forward-thinking attitude, making Maricopa County the first county in the nation to use recording kiosks," Fontes said.

The Chairman and Recorder host the ribbon cutting ceremony at 9 am at the Ed Robson Branch Library, 9330 East Riggs Road, Sun Lakes, AZ 85248. Members of the public are encouraged to attend for remarks and a live demonstration.

All kiosk locations can be found online at <https://recorder.maricopa.gov/recorder/kiosk.aspx>.
