MARICOPA COUNTY RECORDER UNVEILING RECORDING KIOSK – FIRST IN THE COUNTRY

March 17, 2010 – Phoenix, AZ Maricopa County Recorder Helen Purcell unveils, on Tuesday, March 23, 2010 at 10:00am, the first recording KIOSK in the United States. “We are pleased to be the first in the country to offer the public an option to same-day record a document via an interactive KIOSK,” said Ms. Purcell. “It will have the capability of housing a computer terminal with touch screen ability, document scanning and printing, audio, video and credit card reader; and it will permit the public to record their document via a KIOSK while still in direct communication with one of our employees. It is a huge accommodation for public use, helps the environment and will add to the overall efficiency of the Maricopa County Recorder’s Office”

Purcell will explain present and future KIOSK plans at the unveiling on the 23rd as well as have live demonstrations, followed by questions and answers. County officials, clients and the public have been invited to this unveiling.

Media is also invited to witness another first in the Maricopa County Recorder’s office lobby, 111 South 3rd Avenue, Phoenix.
