### **MARICOPA COUNTY RECORDER UNVEILING ANOTHER RECORDING KIOSK IN FTN HILLS**

**August 1, 2011 – Phoenix, AZ....**On July 10, 2011 Maricopa County Recorder, Helen Purcell, announced the unveiling of another recording KIOSK that will take place at the Fountain Hills Library, 12901 North La Montana Drive, Fountain Hills, Az. at 10:00a.m. on August 4, 2011. The public and media are invited to attend this presentation.

Ms. Purcell would be very happy to have the residents of Fountain Hills view and use the recording KIOSK. The Maricopa County Recorder's Office is the first in the United States to offer the public an option of same-day document recording via an interactive KIOSK. The KIOSK has the capability of housing a computer terminal with touch screen ability, document scanning and printing, audio, video and credit card reader; and it will permit citizens to record their document(s) while still in direct communication with one of the Recorder's staff. Its presence in the outlying areas of the county is an immense convenience, allowing residents the ability to record a document or documents without having to journey all the way to downtown Phoenix.

The inaugural KIOSK unveiling was held on March 23, 2010 at the Maricopa County Recorder's Office. At that time Purcell announced it was the intent of her office to have regional recording KIOSKs throughout Maricopa County.

Maricopa County Supervisor Don Stapley and Maricopa County Library District Director Harry Courtright will be on hand along with other invited officials and guests. Following the ribbon-cutting ceremony an actual demonstration will take place along with questions and answers.
